FAQS

What is the Free Solar Panel Scheme, and who can benefit from it?

The **Free Solar Panel Scheme** is an initiative by the Khyber Pakhtunkhwa government to provide solar energy solutions to low-income families. Under this scheme, 130,000 eligible households, including those registered under the Ehsaas Program and Benazir Income Support Program, will receive free solar systems.

How can I apply for the Free Solar Panel Scheme in KPK?

To apply for the **Free Solar Panel Scheme in KPK**, residents must be registered under the Ehsaas Program or Benazir Income Support Program. The selection process is conducted through a lottery system, prioritizing electricity-deprived and highly affected areas.

How does the Ehsaas Program Solar System work?

The **Ehsaas Program Solar System** provides free solar panels to eligible low-income families facing electricity shortages. Households using up to 100 units of electricity will receive a solar system at no cost, while those using up to 200 units will get a system with 50% participation and a mutually agreed cost.

Who qualifies for the Benazir Income Support Program Solar Panels, and what do they include?

Beneficiaries of the **Benazir Income Support Program Solar Panels** scheme must be registered under the program and reside in Khyber Pakhtunkhwa. Selected households will receive a complete solar system, including a solar panel, controller, battery, bulbs, and a fan.

How does the Solar Energy Solution for Low-Income Families help in reducing electricity costs?

The **Solar Energy Solution for Low-Income Families** provides free solar systems to financially struggling households, ensuring a reliable and cost-effective electricity source. This initiative helps reduce dependence on expensive grid electricity, making power more affordable and accessible for those in need.
