

Good Governance Roadmap Introduced by KPK CM Ali Amin Gandapur

Description

Khyber Pakhtunkhwa Chief Minister Ali Amin Gandapur launched the Good Governance Roadmap, which aims to bring good management and development to the province. This roadmap specifically addresses the following issues: providing better facilities to the people, controlling corruption, and running government departments properly. The Chief Minister has said that the people of Khyber Pakhtunkhwa want a system that is profitable and free from corruption. Through this roadmap, the government is also working to make the system people-friendly and yield good results.

این گنڈاپور نے گڈ گورننس روڈ میپ کا آغاز کیا، جس
انتظام اور ترقی لانا ہے۔ یہ روڈ میپ خاص طور پر درج
ہے: لوگوں کو بہتر سہولیات فراہم کرنا، بدعنوانی پر قابو
لے کر صحیح طریقے سے چلانا۔ وزیر اعلیٰ نے کہا ہے کہ
ایسا نظام چاہتے ہیں جو منافع بخش اور کرپشن سے پاک
ذریعے حکومت نظام کو عوام دوست بنانے اور اچھے
دینے کے لیے بھی کام کر رہی ہے۔

Key Objectives of the Good Governance Roadmap

The **Good Governance Roadmap** is a fully-fledged plan that improves the way the government works in Khyber Pakhtunkhwa and some of its key objectives are as follows:

- Providing government facilities to the people quickly and easily
- Making government departments online
- Strictly monitoring the work of governments
- Eliminating unnecessary delays
- Ensuring accountability

Chief Minister Ali Amin Gandapur has said that we want to create a system where the people do not need to run after officers with files. The government is deciding to serve the people honestly and quickly.

Major Improvements in Khyber Pakhtunkhwa Under Good Governance Roadmap

Khyber Pakhtunkhwa Chief Minister Ali Amin Gandapur has made a good governance roadmap to bring about improvements in several important sectors in Khyber Pakhtunkhwa and these are the major ones:

• Provision of public facilities such as domicile, birth certificate, land card and registration of FIR etc. have all gone online.

• A campaign against corruption will be launched and strict action will be taken if anyone is involved in corruption.

• The law and order improvement system will be enhanced and a good and safe environment will be created.

• The education and health system will be improved and schools and hospitals will be upgraded.

• The attendance of staff will be checked online.

Importance of Good Governance Roadmap in Digital Governance

Good governance roadmap is a very important part of digital governance. Khyber Pakhtunkhwa Chief Minister Ali Amin Gandapur is adamant that paperwork causes delays and the chances of corruption also increase, so the government office system is being brought towards a digital system. This and other tasks will be done through it:

• Filing will be done on computers and will not be done manually.

• The work of the officer will be visible at all times.

• The public can easily file their complaints on their mobile phones.

• The attendance of the practical will also be recorded online.

Public Feedback and Complaint System by Amin Ali Gandapur

Amin Ali Gandapur has said that the public's opinions and complaints will be officially accepted and recorded. The Chief Minister has said at all official events that a public help desk will be set up in every event and the complaint will be resolved within a specified time. People can easily convey their

opinions, suggestions and problems to the government through a mobile app or website. This two-way communication will also help the government to know the real needs of the people and decisions will be taken accordingly.

Monthly Performance Review by Amin Ali Gandapur

Amin Ali Gandapur has also said that he himself will review the performance of all government departments every month. For this, a dashboard will be available to the public, in which it will be seen which departments are working well and which departments are working slowly. Such close monitoring will increase the spirit of responsibility and hard work among the officers and will reduce laziness and negligence.

Benefits of the Good Governance Roadmap Project

If the **Good Governance Roadmap** project is successfully implemented, it will have many benefits, which are as follows:

- There will be better and faster public services
- Corruption in the office will be reduced
- People will be protected
- People's trust in the government will increase
- Development will occur in the Usman area
- Law and order will improve

Conclusion

Khyber Pakhtunkhwa Chief Minister Amin Ali Gandapur has introduced a good governance roadmap that will improve the way the government works in the province. This is a huge project. The aim of this roadmap is not just to create temporary Islam but to bring long-term improvements. This plan specifically enhances digital services so that government work is done quickly. This means that people can now sit at home and view their applications online instead of going to the office. This has also saved time and the chances of corruption will also be reduced. In addition, the good governance roadmap will strictly monitor the performance of all government departments and review it so that those involved in corruption will be punished.
